

Dear Parents and Carers,

As the weather is becoming so unpredictable and seems to be changing daily, it would be really useful if the children could bring both coats and wellington boots for the colder, wetter weather but also sun cream and a sun hat in case the good weather returns. This will enable the children to access the entire nursery garden in all weathers. We are happy to replenish your child's sun cream throughout the day but ask that you make sure your child arrives at nursery on sunny days with it already on.

To enable us to put sun cream on your child we need you to sign the permission slip below and return it to us as soon as possible. If you are supplying your own sun cream we ask that you label the bottle with your child's full name.

If you require any further information please don't hesitate to ask.
